

# Barely Awake

BMI: 79740905

Key: C  
Composer(s): David Graybeard

instrumental over first line, twice

Hold on (echo), just a minute (echo) (x3)  
I'm just barely awake  
I been rambling, I been roaming  
I been weeping, a long while  
But it's still not quite mor-or-ning  
And I'm just barely awake

refrain

I am thinking, it's just dawning  
And daylight's just round the bend  
My eyes, are barely open  
And I'm just barely awake

refrain

All those years, spent half dreaming  
All that time, spent half asleep  
The world, ain't quite in focus  
'Cause I'm been, just barely awake

instrumental over refrain

refrain

Will I die, before the morning  
Will I die, without a chance  
Will I fall before I stand up  
Will I die before I wake

refrain

repeat last line of refrain, slowing on last words
