Don't know what's keeping me, I should be walkin' out that door

instrumental over verse

Tried to talk so many times, tried to set things straight
Tired of this whole damn thing, you know it's just too late
Can't take it anymore, can't take it anymore
Walking round in circles, pacing up and down this floor

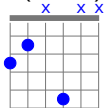

instrumental over verse

One and one is two, two and two makes four
You know it all adds up, to a constant state of war
Can't take it anymore, can't take it anymore
It's a never ending battle, with no one keepin' score

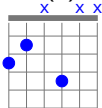

instrumental over verse

Don't wanna know what happened, don't care what's true
Don't care about the past, or if it's me or you
Can't take it anymore, can't take it anymore
You know I'm so outta here, watch me headin' out that door
