The Man is gonna tell you, that it's somebody else's fault
Black, yellow, brown or white, but always someone else
He's got you lookin' left and right, for the cause of your distress
Take a good look upwards, for the makers of this mess

instrumental over verse

Mission accomplished, they've got us where they want
Fightin' 'mongst ourselves, over sound bytes and such
If you just speak truth to power, they will never hear
We have to work together, before we can be free

refrain

instrumental bridge

So listen to me comrade, there's no reason you should fear
The words that sound forbidden, are the words you need to hear
The masters have distracted you, with their arsenal of toys
Time to be men and women now, not little girls and boys

refrain, repeating last two lines of refrain
