

Hey Baby

BMI: 79740989

Key: D
Normal Capo: 2
Composer(s): David Graybeard
Using Capo?: Yes

intro over verse and refrain

C **E7** **F** **C**
Hey baby, you been goin' my way

F **C**
You're headin' there in style

F **C**
We been walkin' round the town

D7 **G**
And we been talkin' all night

C **C7**
But y'keep lookin' round for someone else

F **E7**
Someone you don't find

F **C**
You might not want me for myself

F **G** **C**
That's been troublin' my mind

I wanna love ya', wanna be your man
Wanna treat you kind
Wanna be the man you love
Want it to be just right

But y'got your mind on somethin' else
And that just ain't a good sign
The wheels been turnin' in your head
Like you're leavin' me behind

Well baby, I'll be here for you
And I think that you will find
That I will keep you satisfied
And I will treat you right

So I hope you're makin' up your mind
I won't have long to wait
Hope you're thinkin' 'bout me too
And my love won't be in vain

Don't wanna, push too hard
If this ain't what you want
But I been ready for a long long while
My heart's tied in a knot

So if you're ready, just let me know
And you'll be glad you did
I can walk you home tonight
We'll let this love begin

repeat last two lines to end

outro, slow

C **E7** **F** **C**

F **G** **C** **C7**
