

I Don't Belong

BMI: 73851843

Key: C
Composer(s): David Graybeard

instrumental over verse and one line refrain

I walk alone, wherever I go
I've lived long enough, and I surely know
I don't belong, I walk alone, I don't belong (x2)
I'm a fish on the ground, I'm a man at sea
Rock skippin' on the water, a dog up a tree
refrain (x2)

instrumental over verse and one line refrain

Even as a kid, squirmen' in a church pew
Way back then I already knew
refrain (x2)
Over the years, there's been in a lot of wars
Never understood, what the hell they were for
refrain (x2)

instrumental over verse and one line refrain

If there's something special, 'bout the place we live
Ain't no reasons, that I can give
refrain (x2)
And if there's something different, 'bout the people 'round here
Well I don't believe it, they're the same everywhere
refrain (x3)
