

I Don't Get It

BMI: 79740966

Key: E
Composer(s): David Graybeard

^{E7} Can't you see the danger, ^{A7} it's written on his face
^{E7} He ain't any saner, than a ferret on cocaine ^{A7}
^{E7} Can't you hear the fraud, he says it right out loud ^{A7}
^{E7} He'll say two things at once, from each side of his mouth ^{A7}

^{E7} I don't get it, just don't get it ^{A7}

^{E7} Tell me what the fuck is goin' on (x2) ^{B7} ^{A7}

Can't you tell the difference, can't you see the smoke
He's a narcissistic diva, can't sing a single note
Speaks only in hyperbole, only in black and white
Can't you feel him using you, to spread his hate-filled blight
refrain

Don't you feel controlled, through your darkest fears
He's got you with that whistle, goes deeper than your ears
Can't you see your anger, is triggered by his lies
He's got you where he wants you, you've been hypnotized
refrain

I know you can be better, I know you're not that bad
But it seems like something's wrong, it looks like you've gone mad
How long can you hold the hate, for those who aren't like you
How long can you pretend when you know it isn't true
refrain
