G That's what is making, **Em** me feel so **D** morose **G**

Obama's a Muslim, who's really from Kenya
We birthers and truthers, know that ain't no invention
The Trade Center takedown, a false flag operation
It's a war against Christians, in our lilly white nation

C O I love how it feels, to **G** always be so angry

C Makes me think, I have **G** got some control

C Problems resolve, into **G** something quite simple

D We can blame/hate somebody, who we will never know

Elections are stolen, if we do not win them
Mexicans are rapists, they're stealing all our freedoms
The Haitians are eating, our dogs and our kittens
We need somebody, who is much more like Putin

Blood-sucking pedos, in dark pizza dens
Those are our neighbors, our workmates and our friends
Truthful hyperbole, that's what we call it
Alternative facts, to which we have bought in

refrain

I believe what I want to, 'cause it don't matter
If you have the proof, served up on a platter
I can just say, that it is fake news
I know that because, it's all owned by the Jews

I just cannot wait, Messiah's returning
I would love to see, more pestilence and burning
The end times are here, for everyone but me
I'll watch it all, with everlasting glee

refrain

D Yeah, we can blame somebody, who we will never **G** know
