Using Capo?: **Yes**

Am **G** **Am** **G**
I'm always enchanted, when you're pacin' the floor
Am **G** **Am** **G**
Your pitch of excitement, the thoughts you explore
Am **G** **Am** **G**
The light in your eyes, when you are amused
Am **G** **Em** **F**
The lilt of your lips, brassy and cool

C **B7** **Em**
But I don't love you anymore

C **B7** **Em**
No, I don't love you anymore

I like to bask, in the chime of your laugh
The warmth of the sound, your head in my lap
To tumble and roll, in a frantic embrace
To see the abandon, light up your face

refrain

We'd be talkin' for hours, well after dark
Lit by a candle, straight from the heart
When I was in trouble, you were always there
Dragged me from the rubble, pulled me from despair

refrain

instrumental

What am I doing, I must be a fool
Could never stop loving, everything about you
If only you felt it, the way that I do
No need for pretending, that it's me and not you

So, I don't love you any more

(I tell myself) No, I don't love you any more (x3)
