She talks the while, but you don't really listen
Gm7 **Esus^{6/9}** **E**

A A A A **E**
And it's true x2

I know what love can be like
I know just how love can feel
I know what it's like when it feels right
I know how love is when it's real

Without you (x2)

Mercy says it's time for me to go, now
She'll see me again before too long
Her kiss is warm, but still it's final
Tasting of an old remembered song

And I'm healed (x3)

near a capella on last time
