

Now It's Gone

BMI: 79740968

Key: C
Composer(s): David Graybeard

C **Em** **F** **G**
Oh brother, what have you done
C **Em** **F** **G**
You've skidded off, the road we were on
C **Em** **F** **G**
In the rear view mirror, the progress that we made
C **Em** **F** **G**
It's cold an naked, it began to fade, and
C **Em** **F** **G**
Now it's gone
C **Em** **F** **G**
Now it's gone

Oh father, see what you have wrought
So sick of you, and your bastard son
Your spiteful ways, ain't somethin' that I want
Go back in time, where you belong, cuz

refrain

Oh mother, all the battles you have fought
Will they all, have been for naught
Think of your daughters, think of your sons
Tears in the place of the freedoms we had won, cuz

refrain

Oh sister, what will you do
What will all this, mean for you?
To lose the place, you've earned so well
Lurching toward, this handmaid's hell

refrain

Oh comrade, if you don't fit the frame
The field ain't level, in this new game
They just want simple, they don't want fair
Winner takes all, and they don't share, and

refrain

Oh children, will we ever be forgiven
The world may soon be, unfit to live in
Will you have the strength, to take it back
Will you have the time, 'fore it all goes bad

refrain

G **C**
Now it's gone
