What might have been, or might be after all

E^{6/11}

Esus⁹

Afraid to gamble, afraid of something worse

E^{6/11}

Esus⁹

Afraid to begin, a lasting chain of hurt

Em^{b6} Esus^{(b6)(b9)}

It's a smoky blue

Em^{b6}

Esus^{(b6)(b9)}

A smoldering blue (x2)

Esus^{(b6)(b9)} E^(add1 1)

A smoldering blue

Chemistry's tempting, it's a siren's call

It can be something, or nothing at all

Sometimes what could be, shouldn't be what is

Even if something's, left burning for years

refrain

I wish I could be you, for just awhile

To feel just what moves you, and what makes that smile

And if there is a burning, a smoldering blue

A trace of the yearning, I feel for you

refrain
