C **F** **G** **Am**
Way down deep, inside my soul
C **F** **G**
I know you, know what I know
C **F** **G** **Am**
Way down deep, at the bottom of my heart
C **F** **G**
I can feel it flow
Am **C** **G** **Am**
The seams run deep, where we can't see
C **G** **Am** **Am**
Where it's as dark as coal
Am **C** **G** **Am**
Feeling seeps, where thought's asleep
C **G** **Am** **Am**
It's way down far below

What a time it was, way back when
And what authentic friends
It's over and done, that world is gone
It won't be back again

But way deep, way down deep
It's where the past is known
Way deep, way down deep
Where it began its flow

Walkin' down, this dusty road
I'm glad to share the load
Still on the edge, still on the shoulder
Shrugging off the cold

first refrain

When I'm gone, when I've passed on
You'll remember what we found
We may fade, and pass away
But that won't change what's done

second refrain
