A way from here, away from here, to peace

instrumental over first two lines

I'm getting tired, I'm really weary now
The inner fire, is slowly dying down
The light's too dim to show a way for me
A way for me, a way for me, to see

instrumental over first two lines

I need to stop, sit and think of it
I need to shout, and dance around a bit
I need to walk, to walk away from fear
Away from here, away from fear, to be free

instrumental over first two lines

I want you, with every nerve I feel
I want to, be loved insensible
I want you, to open up a way for me
A way for me, way for me, to feel

repeat, continuing thumping beat on first chord to end
