Well, well, well, well (x4)

instrumental over first two lines of verse

Think I'm afraid, of what you're gonna do?
Then you don't know me half as well as I know you
You'll be back this way, like nothing has been changed
Cast is still the same, the stage is rearranged
refrain

instrumental over first two lines of verse

You get real mad, and say what you don't mean
That ain't so bad, there's plenty wrong with me
But what you gonna do, and where you gonna go
I care about you, and I've got a right to know
