

What's That Got to Do

BMI: 79740976

Key: **G**
Composer(s): **David Graybeard**

G
When I was a little kid
Em
Always thought I was a girl
C
But I always kept it hid
D
Never shared it with the world
G
I just can't understand
Em
Since I am always me
C
Why I need to be a man
D
Why I need to make you see
G
What's it got to do
Em
What's it got to do
C
What's it got to do
D
With you

repeat

I made a dumb mistake
I forgot just that one time
I am not in a good place
Uncertain in my mind
I can't take all of this
I want to run and hide
I'm at the end of my wits
I can't care for a child

refrain

I was born in Mexico
Living hand to mouth
There's nothing for us here
Can't stay here in the south
I need to feed my kids
I need to have a life
I need to send back bread
To my lovin' wife

refrain

I'm a man who loves a man
It gives meaning to my life
To love somebody else
Why can't that be alright?
I hear what people say
How much they want to be free
Why don't you hope and pray
The very same for me
