Standing on the back porch with you, discussing what we're gonna do
D7(omit 5) **G** **D7(omit 5)** **G**
Yeah, we won't do that again, we should just be good friends
E7(omit 5) **Am** **D7(omit 5)** **G**
But when push comes to shove, can't help falling in love (repeat)
I'm sure that you must be right, that was a big mistake last night
I know you're thinking this through, I'm sure that I agree with you
But when push comes to shove, I keep falling in love (repeat)

instrumental over first two lines of verse

I'm trying to hear what you say, but what I see gets in in the way
The shape of your lips as you speak, a wisp of hair against your cheek
And when push comes to shove, I keep falling in love (repeat)
Love runs on a two-way street, two hearts make love complete
Talking and thinking is alright, but being in love is so divine
So when push comes to shove, hope you'll keep falling in love (repeat)
D7(omit 5) **G**
