

When

BMI: 73851763

Key: **Em**
Composer(s): **David Graybeard**

instrumental over one line of verse

Em7 **Bm7** **Am7** **Em7**
Believing is seeing now, belief is all it takes
Believers, they all know how to see only what they make
Believe me, when I tell you this, it ain't gonna last
Beliefs we build won't shield us from, what's coming up real fast
Em7 **Am7** **C** **D** **Em7** **Am7** **C** **D**
Tell me when.... .. will we stop believing (x2)

instrumental over one line of verse

We all believe the things we're told, when they make us feel safe
Delusion's gladly bought and sold, while Truth's a naked waif
Gods and miracles we take on faith, a faith that won't give in
And face the cold and nameless wraith, doubt's a mortal sin
refrain

instrumental over verse

Name a thing and think we're done, explaining how it works
In the name of God we always shun probing where it hurts
Discard the now in favor of, a fictional ideal
Demand respect when it's pointed out, that none of it is real
refrain

instrumental over one line of verse

And when it comes to making war, we all turn away to see
The sideshow that they're putting on, reality is TV
As long as we keep believing them, as long as they wear the mask
They'll never pose the questions we dare not ask
refrain

instrumental over verse and refrain

Believing is seeing now, belief is all it takes
Believers, they all know how to see only what they make
Believe me, when I tell you this, it ain't gonna last
Beliefs we build won't shield us from, what's coming up real fast
refrain
